

EDL20000TE

YAMAHA generators are among the most reliable and efficient products. Designed for domestic and professional use, YAMAHA generators have a robust design that allows them to face any type of environment. Available in gasoline or diesel engines and with a power ranging from 1 to 26 Kva, these generators meet multiple needs.

TECHNICAL CHARACTERISTICS	EDL20000TE
GENERATOR	
Generator type	Brushless, synchronous / three-phase AC
Maximum Power (Kva)	17
Rated Output (Kva)	15,5
Frequency (Hz)	50
Rated Voltage (V)	220 / 380
MOTOR	
Noise Level (Db)	79
Autonomy (H)	17
Fuel Tank Capacity (L)	80
Startup system	Electric
Displacement (cm ³)	1001
Engine type	Diesel engine
DIMENSIONS	
Dimensions (Lxwxh) in mm	1380x700x945
Dry weight (Kg)	340
EQUIPMENTS	
Plug wrench	✓
Handle	✓
Owner's manual	✓
